This assumes that an academician, sociologist, futurist has a proper place on the Board. I am still quite naive on this question.

Dr. Harry Woolf, Director
Institute of Advanced Studies
Princeton, New Jersey 08540

Dear Harry:

I am very pleased to be considered for the position as a Trustee or Board Member of the Institute of Advanced Studies. I would be very happy to accept if the invitation was extended to me.

I am enclosing a condensed curriculum vita. There are two things I should add to it. I have in press a book entitled "The Winding Passage: Essays and Sociological Journeys, 1960-1980." These include about 17 essays, a number of which are listed on page 2 of the vita. (Beyond that, I have in various stages of manuscript a draft of three books which I hope to complete in the next few years.) In addition, in February of 1980, the College of William and Mary in Williamsburg, Virginia, will be giving me an honorary degree for my work in education.

In short, if nominated, I would be glad to accept; if accepted, I would be happy to serve.

Sincerely,

Daniel Bell

The trait giving greatest strength is a true fidelity among those associated together in work or in living.*
