HEUGEBAUER, PROFESSOR OTTO E.

✓ YANG, CHEN HING

PLACZEK, GEORGE

Sir Henry Clay: with a Rockefeller 5-year grant totalling \$25,000 to be administered by the Institute to support Clay's proposed writing on the relations of industry to the State.

Otto E. Heugebauer: five year membership with a grant-in-aid of \$5,000 for one semester a year at the Institute.

Dr. Chen Hing Yang: five-year appointment with a grant-in-aid of \$5500.

Dr. George Placzek: five-year appointment in physics with annual grant-in-aid of \$9,000.

The grants-in-aid are to be separate from the stipend budgets. There was discussion as to whether the letters of appointment should mention specifically that no pension rights were involved. The consensus was that the Trustees should always have their intentions reflected clearly in the letters, and here they had no intention to give pension rights.

VAN HORN, LOUIS C. F.

✓ YANG

FLACCH

Subject to Trustee concurrence, it was agreed to extend one year membership for Hearling to a five-year appointment effective 1952 at \$12,000 a year.

Voted to offer Van Horn a three-year membership at \$5,500.

The Director commented on Yang and Flacch, and announced he would raise the question of placing their associations on a more permanent basis.

The School of Mathematics recommended to strengthen the permanent staff in theoretical physics, that Flaschke and Yang, now holding five-year memberships be made Permanent Members in the School of Mathematics at \$10,000 a year, and with their concurrence, a joint 5 per cent contribution - 5 per cent contribution to IAS; that in the case of Yang, there be no commitment as to whether he will or will not at a later date be offered a Professorship; the issue to be determined by the progress in his own work and by the general situation of physics at the Institute, and by the relative merits of competing candidates for such a Professorship. But there is a substantial probability that, in the light of these

conditions, he will in fact be offered a Faculty appointment at a later date. But in the case of Placzek, it is not at this time anticipated that he will be offered a Professorship at the Institute, and that he should be so notified.

The recommendation as applied to Yang was approved. As applied to Placzek it was amended to state:

"That, in the case of Placzek, it is not at this time anticipated that he will be offered a Professorship at the Institute; that this will not occur unless circumstances now unanticipated supervene." It was approved, Montgomery abstaining. (Presumably because of the liberalization of the recommendation of the School and its softening).
