

Committee of Enquiry, 1962

THE INSTITUTE FOR ADVANCED STUDY, Princeton, New Jersey
Office of the Director

The Committee of Enquiry
C O P Y

15 November 1962

Dear Harold:

Eddie Greenbaum has told me that you are chairman of the trustees committee of enquiry. From other members of your committee, I have learned that these enquiries, which started in April, were in progress last week, and that all members of the committee have now had an opportunity to discuss them. It thus seems to me a good time to meet with your committee, or, more realistically, with its Princeton members, and to learn something of your findings, your conclusions, and your views. There are at this time some questions before me which might be illuminated or helped by such a meeting, and there are indications that in the months to come there will be other and graver questions.

With good wishes,

Robert Oppenheimer
