Dear Sirs:

On December 29, 1936, you wrote to Professor Herzfeld, 11 Weymouth Court, 1 Weymouth Street, enclosing a bill, dated December 29, 1936, to Prof. W. S. Cooke (Fine Arts Graduate School) New York University Heights, U.S.A., as follows:

1936	To a/c rendered	
April 22	To Gopds	22-7-8
May 8	"	3-1-0

		<hr/> L54-13-8

\$125.69

Inasmuch as Professor Herzfeld is now a professor in the Institute for Advanced Study, he asked me to reply to your letter telling you that we have been informed that New York University has paid for the first three items of the bill amounting to L29-1-8. I am therefore enclosing foreign check No. B 282798, Princeton Bank & Trust Company, crossed "Barclay & Co., Ltd.", dated February 27, 1937, for (balance due) L25-12-0. Professor Herzfeld wished me to express to you his regret that there had been such a delay in replying to you on account of his change of address.

Dear Sir.

We much regret having to trouble you regarding the following matter.

You no doubt remember having brought to us various subjects to be photographed and made into lantern slides for Prof W.S Cooke of the Fine Arts Graduate school New York University.

This now dates back to last April, (as per statement enclosed) and although we have sent our account each month both to the University and Prof W.S, Cooke no remittance of any kind has been received by us, we have also written letters but get no reply. We did receive a short note from Prof W.S. Cooke when he was in Spain, stating he had handed the account to the University to pay, but that was last May and we have written twice since to the University, but without result.

We should be glad if you could do something in this matter for us, as we venture to think a letter from you might have more effect.

Apologising once again for troubling you.

Yours faithfully

I find on inquiry that these slides are now in Princeton in the
possession of the Institute for Advanced Study. If this bill has not been
paid by you or by New York University, will you please let me know promptly
that we may send R. B. Fleming & Co. a remittance for the same?

My dear Miss Wolf:

I have your letter of February 10 regarding the collection of slides which Professor Herzfeld ordered in London last year, and in accordance with your suggestion I am sending R. B. Fleming & Company of London a remittance of £25-12-0.

Professor Herzfeld informs me that he and Professor Cook have had a conversation regarding the slides, and it has seemed advisable that the slides become the property of the Institute for Advanced Study inasmuch as they are now in Princeton and in Professor Herzfeld's possession. We shall therefore reimburse New York University for the three items of the December 29, 1936, bill of R. B. Fleming & Company, which have been paid by the University, viz.,

1936			
April 22	To Goods	£22- 7-8	
May 8	"	3- 1-0	
May 22	"	3-13-0

February 11, 1937

My dear Professor Herzfeld:

You will remember that you referred to me the letter of R. B. Fleming & Co. of London with bill for L54-13-8 to Professor W. S. Cook of New York University. Before paying the bill Dr. Flexner asked me to make sure that it had not been paid. I therefore wrote to Professor Cook on January 27 asking him about it. Today I have received the following note in reply:

"I have your letter, and write to say that New York University paid the first three items on your list. We have not paid the remainder, and I would suggest that you send Fleming & Co. a remittance for the unpaid balance of the bills.

Dr. Herzfeld has the collection of slides at Princeton, and it will be better for him to keep them there for the present.

Sincerely yours,

(signed) Gertrude Wolf

Secretary, Department of the History of Art"

The first three items of the bill are April 22, May 8 and 22, 1936, amounting to L29-1-8, which have been paid by New York University.

The balance of the bill, two items on July 28 and one on September 7, amounts to L25-12-0. What is your recommendation about this balance? Should the Institute pay it if the slides are to be removed at some time in the future? If the slides are to remain here, should not the Institute pay for all of them?

Sincerely yours,

Professor Ernst Herzfeld

Dear Dr. Flechtheim:

Your letter of June 25 reached me after a good deal of delay here in Canada.

I am sorry to say that the Institute for Advanced Study is not financially in position to offer you a permanent post, so that contributions from the various organizations which you mention would be of no real or permanent help.

It would give me the keenest pleasure if I could hold out to you some expectation of receiving a post at the Institute, but at the present time that does not seem possible.

With all good wishes,

Sincerely yours,

Dear Dr. Flexner:

Many thanks for the promised letter which, however, I have not yet received.

With regard to our conversation on the telephone last Friday I should like to repeat that both Professor John B. Whitton and Professor Joseph P. Chamberlain seem to be interested in my being placed at Princeton. Besides these gentlemen I saw Professor Alfred E. Cohn and Miss Betty Drury of The Emergency Committee in aid of Displaced Foreign Scholars, and Mr. L.H. Grunebaum and Miss Ingrid Warburg of The Coordinating Committee for Aid to Refugees and Emigrants Coming from Germany and the Rosenwald Found.

My impression is that the Coordinating Committee would be willing to take charge of my remuneration, perhaps together with the Oberlaender Trust, the Rockefeller Foundation or the Emergency Committee in aid of Displaced Foreign Scholars, even in case the Institute for Advanced Study could not contribute to my salary during the first year. I was told that however all these organizations decide on their grants only after the University or Institute in question having made a formal application. Therefore I would be most grateful to you if you would address such an application to those of the mentioned organizations you hold most pertinent to be approached by you. Only thereafter I could perhaps myself try to speak to some of the decisive people.

As many of the leading members of the Committees leave New York very soon, I would appreciate it much if You could make the request before the beginning of the vacation period so that I might begin my work immediately after the vacation.

You shall realize yourself how deep would be my happiness if I could do some work at Princeton. My gratitude towards you, dear Dr. Flexner, is not less deeply rooted for the time being.

My impression is that the Coordinating Committee

these organizations decide on their grants only after

Princeton, June 16, 1939

Dear Dr. Flexner:

I heard that you are trying to bring Dr. Orip K. Flechtheim to Princeton, and that the National Coordinating Committee would also be willing to help Dr. Flechtheim to get started here by considering some such arrangement as has been made in my case. Though it may appear assuming on my part I should like to recommend Mr. Flechtheim's case very warmly to you, trusting that you will not misinterpret my doing so: Mr. Flechtheim is a good friend of mine, but I think I can state quite objectively that he is one of the finest and ablest students I met in all the years we studied together and after. He is indeed one of the very few persons who have good ideas of their own, and what he needs now most of all is a chance to get started.

As a person who has personally experienced your great kindness and readiness to help people like us I hope you

will forgive my bothering you with one more of these cases. I certainly should feel extremely grateful if something could be arranged for Mr. Flechtheim.

On this occasion I should like to thank you again for all you have done and are doing for me.

With kindest regards,

sincerely yours,

H. Herz

Dear Dr. Flexner:

Let me first of all thank you very much for the kind reception you granted me in your home in New York on May, 10. I was really touched by your helpfulness.

In the meantime I made use of the opportunity to go by car with some friends to Pittsburgh, Columbus and Cleveland. I succeeded in making some contacts with colleges and universities, but it is still uncertain if there will be any concrete results. Nevertheless I shall go to-morrow to Chicago where I will stay some days. I think that I shall be back in New York at the end of this month.

I would be very glad if you would be so kind to let me know in the meantime which results your efforts have attained in Princeton. I should be happy of course if there would be soon an opportunity for me to do some research work in Princeton.

Thanking you again cordially for all your efforts,

I remain, dear Dr. Flexner,

Dear Dr. Flexner:

Mr. Flechtheim, as to whose qualifications you have inquired, was a member of my seminar for two years at the Graduate School of International Studies at Geneva. I consider him to be a young man of unusual promise. In the seminar he ranked third among fifteen students of unusual brilliance, and showed marked distinction particularly in the field of the philosophy of international law, to which we gave particular attention in the seminar. He prepared and delivered in the seminar an unusually penetrating study of the conceptions of international law represented by current thought in Soviet Russia.

With respect to general training, cultural background, intellectual power, individuality of thought, I consider Dr. Flechtheim to be exceptionally qualified. Furthermore, I believe that as regards character and personality, he should be persona grata.

Very sincerely yours,

Criticisms of My Publications (Choice):

Hegels Strafrechtstheorie:

Dr. M. Schoemann in Philosophia, Beograd, Vol. I, pp. 384 sq.:

".....Der Verfasser, der mit selbstaendigem Urteil das umfangreiche Stoffgebiet ueberblickt und bearbeitet, bietet mit dieser kenntnisreichen und klugen Darstellung nicht nur dem Philosophen, sondern auch dem philosophisch interessierten Juristen eine feinsinnige Studie, die nicht zuletzt auch zur Bearbeitung aktueller rechtstheoretischer Probleme anregen duerfte."

Prof. Dr. Radbruch in Zentralblatt fuer die Juristische Praxis, Wien, 1936, Vol. LLV, No. 7-8:

"....Flechtheim gibt uns eine sorgfaeltige Darstellung der Entwicklung und der endgueltigen Gestalt der Hegelschen Strafrechtstheorie auf dem Hintergrund seiner gesamten Philosophie...Diesen Wunsch erfuehlt jetzt die vorliegende dankenswerte Arbeit."

Dr. Hoenigschmied in Richterzeitung, Eger, 1936, Vol. 18, pp. 210 sq.:

"....Unter der umfangreichen Literatur ueber Hegel und seine Philosophie ist die Schrift Flechtheims wohl eine der markantesten und, wenn vor einigen Jahren...der Wunsch ausgesprochen worden ist, dass einmal die Entwicklung von Hegels Strafrechtslehren von seinen Jugendschriften bis zur Rechtsphilosophie aufgezeigt werden moege, so erscheint das Werk Flechtheims boinahe wie die bewusste Antwort darauf..."

Ernst Harms in Philosophical Review, November, 1937:

"This little book is a rather good investigation of the essence of Hegel's jurisprudence. The author has developed his research chronologically. Starting with the juridicial contents of the earliest writings (Der Geist des Christentums), he shows the development to the ripe ideas of the Encyclopedia on the Philosophy of Right. Included is some criticism, which points out the present estimation in which Hegel's viewpoints are held."

H. Herz in Schweizerische Zeitschrift fuer Strafrecht, Bern, 1936, Vol. 50, No. 4, pp. 420 sq.:

"....Wer sich mit dem trotz allen Schwaechen grossartigen Gedankengebäude der Hegelschen Rechtsphilosophie auseinandersetzen will, wird an der ausgezeichneten Darstellung des Verfassers nicht vorbeugehen koennen. Sie vereint, in erfreulichem Gegensatz zur kritiklosen neudeutschen Hegelapologie der Binder-Schule, objektive Darstellungskraft mit durchdringender kritischer Analyse und vermag so, ueber das rein historische Interesse hinaus, Mancherlei zur Problematik auch unserer Tage zu sagen."

Oberlandesgerichtsrat Dr. Graf in Oesterreichische Anwaltszeitung, Wien, 1936, Vol. XIII, No. 23, pp. 439 sq.:

"Schon die Einleitung dieses nicht umfang-, aber inhaltsreichen Buches...nimmt das Ergebnis der Kritik vorweg, indem sie die Grenzen der Hegel'schen Dialektik, ihre Unzulaenglichkeit gegenueber dem unueberbrueckbaren Gegensatz zwischen Vernunft und Natur aufzeigt und seine Methode auch fuer das Rechtsdenken zurueckweist....Trotz der Schwierigkeiten, die Hegels Denk- und Ausdrucksweise manchem philosophisch nicht geuebten Leser bereitet, gelingt es dem Verfasser sehr gut, diese Gedankengaenge klar zu machen, insbesondere die Idee der Vernunft und Freiheit, auf der sich das Hegel'sche System aufbaut....Nicht das geringste Verdienst des Verfassers ist es schliesslich, um Hegels Gedankensystem Ideen aus allen moeglichen Zeiten und Laendern, angefangen von den griechischen Tragikern bis zu den russischen Dichtern des 19. Jahrhunderts und den Staatsrechtsphilosophen unserer Tage zu gruppieren und so die fortwirkende Fruchtbarkeit tiefen Erkennens und ethischen Fuehlens zu beweisen."

Otto von Schweinichen in Blaetter fuer Deutsche Philosophie, Berlin, Vol. XI, No. 2:

"Flechtheims Schrift ueber Hegels Strafrechtstheorie zeugt von einer erstaunlichen Belesenheit des Verfassers, die ihren Bezugspunkt einmal naturgemaess in Hegels Aeusserungen zum fraglichen Thema ueberhaupt, alsdann aber auch in der in Betracht kommenden aelteren und neuen Hegel-Literatur hat....."

Professor William E. Rappard, Director of the Graduate Institute of International Studies, Geneva:

"...Dr. F., who, although born in Russia, was of German nationality until he was deprived of it for racial reasons last year, goes to America in the hope of finding some academic job over there. His knowledge of Russian, besides English, French and German, may be of some particular advantage to him.

After his degree in Law, taken in Germany in 1934, Dr. F. has been principally interested, here at this Institute, in the foundations of international law, on the one hand, and international economics and politics, on the other. He has devoted most of his time to the preparation of a thesis on the foreign policy of the Soviet Union which he has not yet entirely completed.

Should you be able to do anything for this serious-minded and able student, who is very well thought of by those of my colleagues under whose immediate direction he has been working, we would much appreciate it...."

Professor Paul Mantoux, Director of the Graduate Institute of International Studies, Geneva:

"I have the pleasure to introduce and to recommend to you one of our best students, Dr. Ossip Kurt Flechtheim, who is now leaving for the States. Dr. F. was born in Russia, of German parents, and because of his birth-place, he was able to obtain, without too much delay, an immigration permit for America.

After studying with distinction in several German universities, and after taking his doctor's degree in Cologne, he had for some time occupied a legal post (Referendar) in Germany, when he was driven out by racial persecution, being of Jewish extraction. Since the fall of 1935 he has studied in our Institute, being granted the annual scholarship we reserve for our most deserving students, in the academic years 1937/38 and 1938/39. He is now completing an important piece of research work on "The evolution of the foreign policy of Soviet Russia and its relation to the Third International."

I hold the best opinion of Dr. F's ability as a scholar and as a possible lecturer, and also of his character which has been tested in such trying times as ours.

If it is possible for you to do something to help him to find his way in your country where his only possible future now lies, I shall be very grateful to you; I am sure that he will recommend himself when you have made his acquaintance...."

Professor Dr. Wilhelm Roepke, Geneva:

"...F. has been known to me for a long time as an especially able and intelligent young scholar and as an extremely interesting personality, so that I may recommend him most warmly in every regard. Besides his scientific qualification he excels in his unusual knowledge of languages. He is as much at home in the Russian and French language as in the German language, and I do not doubt that he will bring his knowledge of the English language to the same level in a short time. His interests, due to his training, are primarily in the legal, historical, and sociological field, but as a member of my seminar he has proved that he feels at home likewise in the field of political economics. Thus he represents in himself, taking everything together, a breadth of learning which certainly is unusual."

Professor Dr. Hans Kelsen, Geneva:

"Dr. F. worked in my seminar at the Graduate Institute of International Studies for several years and excelled here by his special capacities and his great talents. He published several works which authorize the assumption

that Dr. F. is especially fit for the scientific career. Likewise in personal regard Dr. F. is a personality who merits absolute confidence. I may recommend him to everybody to the greatest extent."

Professor Mr. M. E. Meyers, Leyde:

"May I introduce to you Mr. O. Flechtheim whom I know as a young doctor in law and a promising scholar. His knowledge of jurisprudence and sociology is especially very extensive. He has written already many interesting articles concerning these subjects.

I can only express here the hope that he may find a good place for further studies and publications about the same subjects. The university that gives him this opportunity will find a reward in the conviction that it contributes to the scientific development of a first class scholar..."

Professor Arthur L. Goodhart, University College, Oxford:

"...Mr. F. himself has had a remarkable university career. I have been reading his book on Hegel's Theory of Criminal Law and have formed a very high opinion of the author's ability. I should greatly appreciate any help you may be able to give him."

Professor Dr. Serge Karcevski, Geneva:

"I, the undersigned, certify that Mr. O. K. Flechtheim followed with full success my courses in Russian language and literature at the University of Geneva in 1937 and 1938. I hold to declare that Mr. F. has shown much application and manifested a vivid interest for the subjects lectured on by me."

Madame Theurey, Professeur de Langue Francaise à l'Institut Universitaire de Hautes Etudes Internationales, Genève.

"Je soussigné, Professeur de francais à l'Institut Universitaire de hautes études internationales, déclare avoir eu comme élève: Monsieur Flechtheim (Ossip) qui a suivi mes cours pendant deux ans.

Je puis donc certifier, que cet élève, qui s'est montré toujours très appliqué, connaît à fond le francais. Il possède la grammaire, peut converser sur tous les sujets, a appris la phonétique et connaît la littérature etc. C'est avec plaisir que je puis recommander Monsieur F. qui est capable de faire n'importe quel travail dans cette langue."

Dear Mr. Flexner:

There is a very distinguished jurist named Max Fleischmann, formerly--that is until the operation of the anti-Jewish laws--a professor at the University of Halle. He is quite up in the front rank in professional and scientific standing. What he is threatened with now is deportation to some wretched hole in Poland where his chances even of physical survival are extremely slight.

If he could receive any kind of an offer to teach in any American institution he could get the corresponding visum in Germany. His qualifications for that are unquestioned. I am sure that most of the members of your staff know him.

Very sincerely yours,

Dear Professor Radin:

As I have succeeded Dr. Flexner as director of the Institute for Advanced Study, your letter of June 15 has been referred to me for reply.

I am sorry to say that Dr. Fleischmann's subject is outside the field covered by the Institute at this moment, and for this reason it would be impossible for us to invite him here. I very much hope that you will be able to find an opening for him in some school of law.

Dear Mr. Fletcher:

I have been out of town off and on and for that reason I am not certain whether I answered your extremely kind note of December 8. Anyway the note is still on my desk, which leads me to think that it is one of many to which I have not been able to reply.

I remember you with the greatest pleasure and wish very much that I might have the satisfaction of seeing and talking with you again. I am sending you under separate cover a copy of the first bulletin of the new Institute. ^{from the news release enclosed} You will observe/that it will begin in a modest way with higher mathematics. Just when other subjects will be taken on and what they will be remains to be considered. Dr Abraham Flexner

Dear Dr Flexner,

A few days ago I read an account of the projected Institute for Advanced Study under your Directorship and, thinking of it, have felt very much inclined to write and call to your remembrance the occasion when you and Dr Rose gave me a most kind and hospitable welcome when I came to New York on my way to undertake the work to which I was invited at Santa Barbara.

The foundations for that enterprise proved to be shifting and unsubstantial. I withdrew from it nearly three years ago and have now come for a few weeks to Los Angeles where I am giving lectures on the technological side of artistic work.

Is that kind of science at all within the scope of your new Institute? If it were I should earnestly crave to be in some way associated with it.

I write in any case to recall our meeting to your remembrance and to send my very kind greeting and regards.

Yours sincerely,

Frank Morley Fletcher

The Institute for Advanced Study

Sous le titre d' « Einstein au paradis des chercheurs », nous avons signalé dans cette revue (tome IV, n° 2, pp. 91-97) la formation et l'existence, auprès de l'Université de Princeton mais indépendamment d'elle, d'un nouvel Institut qui constituera une sorte de post-Université.

Le corps professoral, sévèrement recruté parmi les savants les plus réputés d'Amérique et d'ailleurs (Albert Einstein en est), jouira de toutes les facilités matérielles possibles et sera astreint à se consacrer uniquement à la nouvelle école. Son travail consistera, et en recherches personnelles et en charges d'enseignement, dans la proportion et sous la forme qu'il jugera utiles. Toute liberté lui sera laissée dans le choix des sujets qu'il traitera et qui seront évidemment en rapport avec les recherches personnelles de ses membres.

Les étudiants seront choisis parmi ceux qui ont déjà obtenu leur Ph. D. ou dont l'instruction en est équivalente. Il s'agira pour eux non seulement de s'assurer un complément de science et, par là, de se préparer à une carrière universitaire ou scientifique, mais encore de participer activement aux recherches déterminées de leurs maîtres.

L'Institut qui se propose d'ouvrir différentes sections, n'a inauguré jusqu'ici que son école de mathématiques. Les professeurs désignés sont : Albert Einstein, Oswald Veblen, J. W. Alexander, J. von Neumann, W. Mayer et deux assistants.

La session est de six mois et l'enseignement sera donné, soit par des séries de conférences, soit dans des séminaires, soit par contacts individuels avec les étudiants, soit par la participation aux recherches des professeurs.

La deuxième session s'ouvrira en octobre 1933, pour se terminer au début d'avril 1934.

Les étudiants inscrits à la nouvelle école pourront, par la même

occasion, suivre les cours de la Faculté de mathématiques de l'Université de Princeton et user des facilités que leur présentera la bibliothèque de mathématiques de la même Institution.

Les frais d'inscription s'élèveront à 100 dollars l'an et l'on peut, dès maintenant, faire sa demande d'admission, en indiquant ses titres et références, à M. Abraham Flexner, Director of the Institute for advanced study, Princeton (New Jersey).

Nous avons cru utile de signaler aux Alumni et aux lecteurs de cette Revue les avantages que présente la nouvelle école à laquelle, peut-être, s'inscrira un jour un jeune mathématicien belge partant pour l'Amérique.

My dear Foster:

Returning to town, I find yours of July 22 regarding the Germanistic collection. Unfortunately, we are at present quite at sea regarding the whole library problem. Until some decision has been reached as to the site of the proposed Institute, the Trustees are disinclined to take any steps. It may turn out that we will be so close to some other collection that our library needs will be very different from what they would be if we were entirely detached.

In common with all others who believe in Great Britain and their score runs into many, many millions, I am profoundly distressed by the serious situation which has developed in London, but our faith in the English people is not shaken. We are, however, terribly distressed to realize the suffering that has to be endured. Meanwhile, conditions in America are the worst I have known. Unemployment is rife, dividends are vanishing. Those who live either upon wages or income are facing a dreadful winter, with which our feeble central government is absolutely unable to cope.

With all good wishes and warm regards,

Sincerely yours,

ABRAHAM FLEXNER

Dear Robert:

Thank you very much for sending me your dossier on the Italian photographic enterprise (Fototeca di Arte Post Antica Romana). I think Millard is quite right that the photographs should be bought by McCormick Hall, and we ordered them, as a matter of fact, some little time ago.

With all best wishes,

Yours sincerely,

Dear Dr. Oppenheimer:

I am preparing a new edition of the SMITHSONIAN PHYSICAL TABLES and want to include therein a table giving the list of the particles of modern physics. Enclosed is the sheet as we have it prepared to date. I am wondering if you would, or if you would have some of your students, add to this list the several new particles that have been discovered since this table was prepared.

Yours very truly,

neutretto, a neutral meson with infinite life until it encounters matter.

neutrino, a very small neutral particle whose existence has been suggested to account for some energy and momentum changes.

Photon (radiation quantum), $h\nu$; γ ; value ($\lambda = .6\mu$) 3.310×10^{-12} ergs.

† Very short life.

‡ There are several types of this short-lived (2×10^{-6} sec.) particle designated by prefix letters σ , π , N.F., τ , μ before the name, as σ , π , N.F., τ , μ mesotrons. A definite name has not been agreed upon; it is called the mesotron or the meson.

Dear Dr. Forsythe:

This is in follow up of my letter of July 13th. I regret very much that I must write you of my failure to find a physicist here who could devote the time and attention that would be required to prepare the list of new particles to which you referred in your letter of June 22nd. I am sorry that we cannot now assist you. But if you wish, I shall be glad to hold your request until the Institute is again in session the latter part of September, and to refer it to our physics group at that time.

Dear Dr. Forsythe:

I am sorry for the delay in acknowledging your letter of June 22nd. Dr. Oppenheimer is away from Princeton for the summer, and he will not return until some time in September.

Although most of our Members have left the Institute for the summer, I shall be glad to try to find someone in our physics group who can give you a list of new particles for inclusion in the revised edition of the Smithsonian Physical Tables.

Sincerely yours,

Katherine Russell,

Mr. Frank Aydelotte

Dear Mr. Aydelotte:

I am writing to you at the suggestion of the Rev. Martin C. D'Arcy, S. J., of Oxford University. Father D'Arcy asked me or my husband, Dr. William O'Meara of the Philosophy Department in this University, to write you about Mr. F. W. Foerster who was formerly professor at the University of Munich.

You may not know that Professor Foerster is without work and without funds. When Father D'Arcy asked us to write you, we did not realize that Professor Foerster was in any grave financial difficulty and so we let the matter go. Now we understand that his financial need is very serious. The miscellaneous lectures which were his only source of income have been almost entirely discontinued since the United States entered the war and we have learned that for the past two or three months he has had no lectures at all. We sincerely hope that you will be able to think of some kind of work that Professor Foerster might do.

We received a letter from Father D'Arcy last Saturday telling us that he had arrived back at Oxford safely after a long and difficult trip.

Very truly yours,

Ruth Byrns

Dear Sir:

We have received a letter from Prof. Satyen Nath Bose, Vice-Chancellor, Visva-Bharati University, Santiniketan, asking that we send him a catalogue of the Institute of Advanced Studies. I am sorry that we have not been able to fill his request. I would appreciate it very much if you would send him a catalogue and material which will give him information "especially on the manner of its organisation of studies, research and teaching".

Prof. Bose is a distinguished Indian scientist, who is eager to make Visva-Bharati the great educational institution which its founder, Rabindranath Tagore, visualized. His request for material on the organization of the Institute is a step in this direction.

Dear Foreign Student Adviser:

Enclosed are copies of the Christmas Calendar of Events being planned by the Greater New York Council for Foreign Students.

The Calendar contains the schedule of the major activities; but there will be a number of other functions, the plans for which are not yet complete. Hence, the students should be encouraged to get in touch with the Christmas Students Center - 135 East 52d Street, at the National Board of the YWCA - as soon as they get in to the City. They must also secure their identification cards at the Center.

Will you please see that students from abroad on your campus who expect to be in New York City over the holidays, receive a copy of the Calendar? If you need more copies, please get in touch with our office.

With best wishes for a pleasant holiday season,

Sincerely yours,

Ruth Haines

Christmas Calendar

★ 1949 ★

December 17, 1949 to January 2, 1950

Greetings...

The spirit of Christmas warmth and fellowship is familiar around the world. We in New York want to share our Christmas celebration with those students from other lands who may be in our city. Indeed, the Greater New York Council for Foreign Students, made up of representatives from colleges and voluntary organizations throughout the city, has made special plans, and arranged tours and parties in order that you may better know the city and her people, and enjoy your visit the more.

This Calendar lists some of the special events that have been planned, and provides certain information about the opportunities available during the holiday season. Other events will be announced later.

To take part in these activities, you will need an identification card, which you can obtain through our member agencies or at our Center.

For your convenience during the Christmas vacation, we are opening a temporary Student Center at 135 East 52d Street. We of the council are indebted to the National Board of the YWCA for so graciously making this space available.

With all good wishes for a happy holiday season,

FRANK D. FACKENTHAL, *President*

ADDITIONAL INFORMATION

This Calendar includes a number of tours, parties, and special events. Most of the activities are without charge save transportation, but in those cases where there is a fee, the amount is given. Guides will lead all the regular tours. In addition to the events herein listed, there will be others about which you can get information at the Center. You will also want to explore New York on your own, or with a few friends, and the volunteers at the Center can help you find out about the places of greatest interest to you.

Tickets to radio broadcasts will be distributed daily at the Center.

SPECIAL INVITATIONS

Many American families are anxious to know students from abroad, and particularly at this season of the year to include students in their festivities. If you would care to receive an invitation to have dinner with an American family, please give your name to Miss Ruth Palmer, who will be at the Center between 10 and 12 each morning that it is open.

THE CHRISTMAS STUDENT CENTER

The Christmas Student Center at 135 East 52nd Street (at Lexington Avenue) is for your convenience. We hope the New York City students will visit it early in the week and that the students from out of the city will go there as soon as they arrive in New York, to receive their identification cards. It will be open from 10 a.m. every day from December 17 to January 2, with the exception of Christmas Day (Sunday), when it will be closed all day, and New Year's Day (Sunday), when it will not open until 4 p.m. There will be a Council staff member on duty at all times when the Center is open, as well as volunteers from various agencies to assist the students in working out their plans.

The telephone number at the center from December 19th to January 2nd will be PLaza 5-4066.

To get to the Christmas Student Center — the following transportation information is offered:

SUBWAY: Independent System, Lexington Avenue Station, "E" and "F" Lines. (Take "E" train marked "To Queens" from Penn Station.)

IRT System, 51st Street, local stop on Lexington Avenue Line.

BUS: Lexington Avenue bus in front of building. Crosstown buses on 49th and 50th Streets. Fifth Avenue buses are three blocks west of Lexington Avenue.

HOTEL ACCOMMODATIONS FOR THE CHRISTMAS VACATION

The GNYCFS has tried to find inexpensive accommodations for students. Listed below are our suggestions. Students will probably find that International House, the YMCA, and the YWCA provide the most satisfactory, inexpensive accommodations in New York City. As their space is limited, we are also listing a few hotels. We have visited the hotels which are suggested and believe that they will provide clean and respectable accommodations at rates which are low for New York City. We wish to point out, however, that you cannot expect to find the same atmosphere in the lower priced hotels that you would expect in the more expensive ones. We have listed only two hotels, of different price range, as we feel there is an advantage in having as many students as possible in the same place. *Kindly make your own reservations by writing directly to the place of your choice. Indicate the type of accommodations and the exact dates for which you wish them.* It will be helpful to mention that you are a student from another country.

Dear Judge Forman:

I have heard from Mrs. Bradford (Brodführer) who received her citizenship on February 24th, of the fine address that you made on that occasion. I can imagine it is not an easy thing to speak to a group of people of such varied backgrounds and levels of intelligence. I understand your speech was a model of idealism combined with human interest and sympathy. I think it is a wonderful thing to have exercises of this sort meet the exacting demands of the situation and I congratulate you on the success which you achieved. If your address was written out I should like very much to see a copy of it.

With warm appreciation of the many courtesies you have shown our people, I am

Yours sincerely,

Frank Aydelotte

Dear Mr. Forster:

In reply to your letter of March 11th I take pleasure in sending you under separate cover a copy of our most recent Bulletin. There are no formal application blanks for admission to the Institute. Candidates for membership are usually asked to submit a curriculum vitae, a list of their publications and a brief statement describing the research they wish to undertake. This information is then presented to the Faculty of the School concerned for discussion and action. In selecting members of the Institute, the Faculty gives special consideration to the relationship which the project of the member has to the work currently in progress at the Institute.

I hope this will give you the information you need. If you have any further questions, please do not hesitate to let me know.

Yours sincerely,

Jane S. Richardson

Dear Dr. Forsythe:

This is in follow up of our correspondence regarding your request for a list of new particles. I have talked to one of our permanent members in physics; and it is his suggestion that you come in touch with Professor R. T. Birge, Department of Physics, University of California, Berkeley, California. Prof. Birge, I am told, is a recognized expert, and he would be most capable of handling your request.

Sincerely yours,

Dear Miss Russell:

It is very kind of you to suggest that our request for a list of new particles be referred to the physics group. Perhaps that will not be necessary--if someone can give us a list of suitable references I am sure we can make up the table ourselves.

Dear Dr. Oppenheimer:

Your probably know that the American Council on Education has organized and sponsored a panel in higher education in occupied territory. This panel is sponsoring visits to the United States of certain German higher education officials, and these visits have been arranged by the United States Office of Military Government for Germany.

President Dodds recently received a letter from Professor Anderson of Ohio State University, who happens to be making the arrangements for these visits. He wrote that Dr. Wolfgang Kunkel, Pro-rector of Heidelberg University, and Dr. Hans Gorg Rupp, Head of the Division of Universities in the Wuertenberg-Baden Ministry of Education, will come to Princeton in June.

You may have heard from Professor Anderson or some other representative of the panel of the American Council on Education because in the letter President Dodds received, there was a statement that Drs. Rupp and Kunkel wish to visit the Institute while in Princeton.

On the chance that you have not heard from them directly and also because I have just received a letter from Dr. Rupp, I am writing to tell you that he and Dr. Kunkel expect to arrive in Princeton on Thursday, June sixteenth, and remain until Monday, June twentieth.

Since this visit occurs in the brief interval between the end of our commencement activities and the date of President Dodds' departure for the summer, he has asked me to take care of any details of this visit which may be necessary.

Sincerely yours,

Arthur E. Fox.

Dear Mr. Fox:

We have your letter of March 26th. We regret that we are unable to comply with your request, since we do not have a picture file of temporary or permanent members of the Institute. In addition, only one man on the list, Professor Albert Einstein, has ever been a member here. Pictures of Professor Einstein are probably available, either through LIFE Magazine picture files, or the local photographer, Mr. Alan Richards, 617 Princeton-Kingston Road, Princeton, New Jersey.

Dear Sir:

I am in the process of producing a brochure for high school youngsters visiting Oak Ridge National Laboratory. In this brochure, I intend to go back and cover a few of the pertinent historical facts of atomic energy and to use several pictures, some of which I do not have. I would appreciate very much if you could supply pictures of - Sir James Chadwick, Lord Ernest Rutherford, Dr. Ernest O. Lawrence, Albert Einstein, Dr. Robert Conat, Dr. Arthur Compton, Enrico Fermi and General Groves.

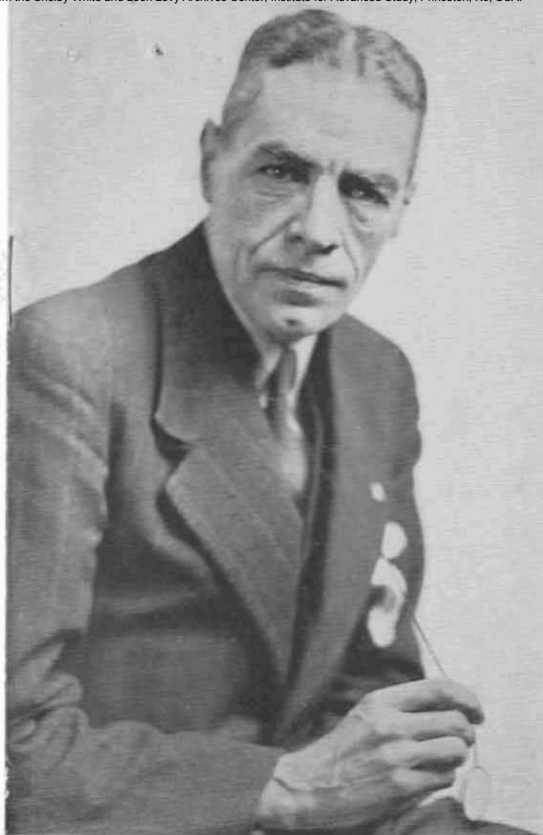

I would appreciate very much your consideration in sending these pictures.

DAILY CITIZEN, Beaver Dam, Wisc.

A typical Dutch scene of a windmill. In the foreground is a milkman who makes his deliveries by rowboat.

Dr. Harry P. van WALT . . .

a widely-traveled psychologist, author, journalist, lecturer, radio commentator, and keen student of international affairs, Dr. van Walt was in his native Holland on May 10th, 1940, when the Nazis invaded the Netherlands. His experiences during the subsequent five months — before his arrival in America — constitute a saga of adventure which would be difficult to duplicate.

He has had a long career on the lecture platforms of Europe, speaking before Universities, Scientific Institutions, Colleges, Clubs, and on the Radio, in England, France, Germany, Spain, Italy, and his own Holland — delivering each lecture in the native tongue of the country. These experiences and also the fact that he has been around the world twice and speaks nine languages, all of them fluently, account for Dr. van Walt's deep insight into the old pre-Hitler Europe. During the five months which followed the invasion of his country, he was able to see and judge at first hand what the rise of Hitlerism did to peaceful European nations. Since he has been in America, he has followed closely the aftermath of the Nazi invasion through close contact with the representatives of his Government in America, who keep him informed on all developments.

Dr. van Walt has all the culture of an old and respected family of Holland, enriched by his outstanding scholarship. Since his arrival in

America, he has built an ever-increasing number of friendships in this hemisphere through his charming and sincere personality, and by means of his lectures before Universities, Colleges, Schools; Kiwanis, Rotary, and Women's Clubs; Boy Scout organizations, U.S.O. groups; and Churches of various denominations, all over the country.

WHAT THEY ARE SAYING IN UNIVERSITIES AND COLLEGES . . .

"We were so pleased with Dr. van Walt that President Richmond asked him to give a second address. Both of his addresses were as well received as any that had been delivered from our platform. We found him not only most interesting from an intellectual viewpoint, but also a delightful person. I hope he can return to our campus next year. I wish every student body in America could hear his message, and I would certainly commend him most highly to any university and college audience in America."

— William G. Nash, Dean, State Teachers College, Murray, Ky.

"He gave us much valuable first-hand information about the Nazi invasion. All who heard him were delighted with the lecture and with his generous response to questions."

— P. P. Claxton, President, Austin Peay Normal College,
 Clarksville, Tenn.

"We heard Dr. van Walt with great satisfaction. He is a scholar and a most effective speaker. It was a personal pleasure to us to meet him."

— Augustus H. Able, Committee Chairman,
 University of Delaware, Newark, Del.

"Dr. van Walt has a real message and delivers it well. Students and faculty alike were delighted with him!"

— J. C. Rogers, President, North Georgia College
 (Military School), Dahlonega, Ga.

"Dr. van Walt's lecture was exceedingly interesting, and our students took advantage of his willingness to answer questions."

— C. R. Wimmer, Dean, Union College, Barbourville, Ky.

"We picked Dr. van Walt to be the highlight of a somewhat ambitious summer lecture schedule. He did not disappoint us in the least! While here he spoke to the Lions' Club, the Rotary, and the Boy Scouts; he also delivered three regular lectures and conducted three round-table discussions. He tells his story in a gripping fashion. We like him so much that we would like to have him for an engagement during the regular academic year."

— Wm. F. Knox, Director, Division of Field Service,
 State Teachers College, Warrensburg, Mo.

"Dr. van Walt's friendly personality and his interesting message combined to make his visit an event of great interest to all. All who heard him were deeply impressed with the vivid picture he painted of European conditions, and with the challenge he gave to a wholehearted support of the war, looking toward a saner and a better day."

— James L. Robb, President,
 Tennessee Wesleyan College, Athens, Tenn.

"We want to thank you, Dr. van Walt, for coming to us and giving two magnificent addresses. The students were deeply interested, and you opened up to them a real understanding of conditions in Europe. We are grateful for the way in which you gave yourself, and for your able presentation."

— R. C. Hutchison, President, Washington and Jefferson
 College, Washington, Pa.

"Dr. van Walt made a remarkable impression. He was cultured, delightful, and convincing. We had to almost run our students away from him after about one hour and a half. I do thank you for bringing him to my attention."

— Paul S. Powell, President, Kentucky Wesleyan College,
 Winchester, Ky.

"Dr. van Walt made the most profound impression on our student body of anyone who has ever spoken here. . . . He spoke in our assembly period on: 'Is Death the Antithesis of Life?' One of the most popular boys on the campus had recently died, and the student body was quite in the mood for the talk Dr. van Walt gave. Taking this talk with the one he gave the following day on 'The Use of the Subconscious in Study', I may say that he made a more profound religious impression than any other leader I have ever had. . . . His two evening sessions were very instructive, very enlightening, and very well received. I should like to have him back again. The student body would receive him with open arms, and the faculty, too. . . . He had a closely-knit schedule of personal conferences, and even so he could not reach more than five per cent of those who wanted to talk with him personally. . . . I have been in this business quite a while, and I can only repeat that the extraordinary response of the students to this man is something quite beyond any experience I have ever had before."

— Stanley C. Ross, President, Wayland Junior College,
 Beaver Dam, Wisc.

"Both of Dr. van Walt's messages were greatly enjoyed. We were pleased to get first-hand knowledge of conditions in Europe which he described so vividly."

— L. A. Eubank, Dean, State Teachers College, Kirksville, Mo.

"Dr. van Walt's address before our graduating class was of a very high order, and met with an equally favorable reception. I have heard numerous expressions of commendation. He gave us a fine insight into the philosophy of German education under the Hitler regime in contrast with our philosophy. We found him a charming gentleman. I take pleasure in giving him my hearty commendation."

— D. S. Burleson, Dean, State Teachers College,
Johnson City, Tenn.

* * *

A WORD FROM THE U.S.O. . . .

"A delightful time with Dr. van Walt. The boys did enjoy his lecture!"

— D. M. Robison, Tullahoma, Tenn.

* * *

A WORD FROM A CHAMBER OF COMMERCE (Bridgeport, Conn.)

"There were most favorable comments from those present; his presentation was enjoyed by all."

— Robt. A. Crosby

WHAT THEY ARE SAYING IN SCHOOLS . . .

"Dr. van Walt's was probably the most outstanding program we have ever had. He has a vital message for the youth of today. He has a message that should be heard by the youth of America at this time."

— Frank J. Ogden, Principal, Winchester High School,
Winchester, Ky.

"His breadth of experience, sincerity of approach, and excellence of delivery, made his lecture one of the very best of the season. I heartily recommend him to all who would renew their hopes for the future of civilization, and revive their faith in mankind."

— J. W. MacDonald, Milford Public Schools, Milford, Ohio

"Our student group was enthusiastic about Dr. van Walt. The impression he made was most favorable. He goes over well with high school students."

— J. Milton Rossing, Principal, Glen-Nor High School,
Glenolden, Pa.

"Dr. van Walt has a most interesting message and understands young people well enough to make it effective. We especially enjoyed the charm of his sincere and pleasing personality."

— C. E. Douglass, Supt. Newark Public Schools, Newark, Del.

"All who heard Dr. van Walt will be long indebted to him."

— H. E. Peck, Principal, Geneva High School, Geneva, Ohio

"He made a deep impression upon the boys and girls. I take pleasure in recommending him."

— Ira L. Landes, Supt., New London Schools, New London, Ohio

"The boys enjoyed him immensely!"

— Mrs. W. G. Mattern, Principal, Irving School,
Tarrytown, N. Y.

* * *

WHAT CLUBS SAY . . .

"The lecture was so very interesting!" — Maine Women's Club of New York. — "A very interesting talk!" — Private Schools Association of the Central States. — "A vital message. We gained much illuminating information from our association with him." — Rotary Club, Cardington, Ohio. — "We have had very favorable comments." — Jamestown Automobile Club, Jamestown, N. Y.

"I share the deep impression made by Dr. van Walt with every member of our Club. Not only was his speech superb, but the friendly down-to-earth manner in which he presented it has won him a standing place in the hearts of all who heard him. His courage and spirit is a challenge to every freedom-loving citizen. If more people can be drawn from that pattern, their work in sticking together a war-torn world will show in the finished product."

— Eileen Bolton, Student Vice-Pres., Milford History Club,
Milford, Ohio

Dear Dr. Aydelotte:

Dr. van Walt will be returning from an extensive Middle West and Southern tour late in March, and I am wondering if you would not like to make arrangements for his appearance in Princeton at about that time.

The enclosed folder will give you an idea of the scope of his work and of the enthusiasm he evokes wherever he appears. His week as WORLD FRONT OBSERVER was a huge success, many hundreds of letters pouring in asking that he return to the microphone as soon as possible. I have just recently been approached by Columbia, so that in all probability he will presently have a far wider range of listeners than he has yet had.

Some of his lectures have been directly slanted toward post-war reconstruction, and in this connection the British Press Service is negotiating with me for permission to use his records for broadcast material over short wave to all the outlying parts of the Commonwealth.

His schedule is tight up to the end of March, but he will be freer as from the beginning of the last week in that month.

Sincerely yours,

Helen M. Fowles

I told Placzek about this. He said it would be very time consuming to try to do a good job. He thought my letter was just right. I did not tell Dr. O.; but you might if you have the time and he does. I don't think he will do anything. Forsythe may follow up; but we can only say that everyone is away and that if he would like to wait until we are again in session, I will try again. I might send him a note when I come back if he has not written in the meantime.

Did not tell RO; this apparently quite a job.

FOR RELEASE, June 25, 1937

Newton, Mass., June 25. In behalf of the Consumer Foundation, Inc., the Pollak Foundation for Economic Research during the next three months will study the question: What kind of national organization is needed to promote the consumer interest?

Discussions to date indicate that the purposes of the proposed organization may be to promote research in the consumer interest and to give information concerning prices and price-fixing; monopolies and competition; consumer debts and consumer credit; trade practices and trade agreements; taxation; governmental regulation of industry; and any other matters as far as they affect the consumer interest; also, as far as feasible, to give consumers information which will enable them to judge the value and quality of goods and services; and in all these respects to assist, but not duplicate, the work of other agencies in these fields. The dominant purpose will be to help bring about a balance of the producer interest and the consumer interest in order to promote the public interest.

In the fall a comprehensive report will be issued, with recommendations concerning the aims, scope, methods, finances and constitution of Consumer Foundation, Inc., and its relation to numerous other agencies, public and private, which are especially concerned with some phase of consumer interest. Funds for carrying forward the project seem to be assured from a variety of sources.

This project, which has been discussed for three years, is the immediate outcome of a meeting, in New York City, on April 30, attended by men and women from various parts of the country and connected with numerous consumer groups. This meeting created a committee of five with power to act. The members of the committee are William Trufant Foster, Director of the Pollak Foundation, formerly a member of Consumers' Advisory Board of National Recovery Administration; Mrs. Bert W. Hendrickson, Chairman, Committee on Consumer Interests, New York World's Fair and Director on Consumer Education, New York State Federation of Women's Clubs; James B. Littlefield, Chairman, Consumers County Council, Providence, R. I.; Stacy May, Rockefeller Foundation; and Crump Smith, Editor, National Consumer News. The committee asked the Pollak Foundation to take charge of the work, to issue a report, and to arrange for a meeting in October, at which time action may be taken on the proposals.

-2-

The project has been approved by the Advisory Council of the Pollak Foundation which includes Waddill Catchings, Lawyer, New York City; Carl F. Danner, President of the American Hide and Leather Company; Paul H. Douglas, Professor of Industrial Relations, University of Chicago; Henry I. Harriman, recently President of the Chamber of Commerce of the United States; Virgil Jordan, President of the National Industrial Conference Board; Ernest H. Lindley, Chancellor of the University of Kansas; Warren M. Persons, Consulting Economist, Cambridge, Mass.; Robert F. Wagner, Member of the United States Senate; Richard H. Waldo, President of the McClure Newspaper Syndicate.

November, 1935.

Dear Sir,

THIS YEAR'S "WHO'S WHO" FOR ONLY 30/- AND
THE ACTUAL PUBLISHED PRICE IS 60/-.

We are writing to let you know some very important news. We have just arranged an exceptional book bargain and we are writing immediately to tell you about it.

From the second week in December when the 1936 edition is published, we shall be selling the 1935 edition of "Who's Who" for only 30/- (inland postage 9d.)

We know that you will appreciate that this is a really outstanding bargain. As you probably know, the 1935 "Who's Who" with its 3,700 pages and 40,000 biographies—including your own—was originally published at 60/- net and is ACTUALLY BEING SOLD AT THAT PRICE TODAY.

There is no doubt at all that there will be a tremendous demand for this great bargain and as only a limited number of copies will be available, we should appreciate it very much indeed if you could let us have your instructions as soon as you possibly can.

The enclosed card requires no stamp and if you will merely fill it in and post it to us, we should be glad to reserve your copy for you.

Yours faithfully,

W. & G. Foyle, Ltd.

P.S. If you already have a copy of the 1935 "Who's Who", we should like to receive your order for the forthcoming 1936 edition. The price is 60/- post free, and if you fill in the enclosed card, a copy will be sent to you immediately on publication.

Dear Sir,

You will be interested to hear of the publication of a splendid new reference book which we know will be very useful to you. It is called THE INTERNATIONAL WHO'S WHO and it is, definitely, the most comprehensive international reference book of its kind ever published.

"The International Who's Who" contains over 25,000 authoritative biographies of contemporary men and women, in every country in the world. Never before has it been possible to find in one accurate handy-sized volume, so many useful international biographies as in this wonderful new directory. Never before has there been available, in such convenient form, the names, addresses and careers of almost all the most eminent men and women living in the world to-day. The price is 63/- carriage paid.

We know that this Directory will appeal very much to you. In any case, we should appreciate it very much if you would let us send you a copy ON APPROVAL so that you may see and examine and judge it for yourself. The enclosed card requires no stamp and if you will merely fill it in and post it to us, the book will be sent to you by return without the slightest obligation on your part.
