

THE INSTITUTE FOR ADVANCED STUDY

As chief administrative officer, the Director shall be responsible for the physical and housekeeping arrangements of the Institute, and for reporting to the Board on their needs and costs. The Director shall be responsible for keeping before the Board the current and long-term financial situation of the Institute. In this connection, he shall prepare and present to the Board annually a budget. From time to time he shall report on the longer term financial needs and prospects of the Institute.

In academic matters, the Director shall be responsible for seeing that the views of the Faculty on the operation and development of the Institute, together with his own comments, are communicated to the Board. He shall be particularly responsible for those matters which affect the Institute as a whole and fall outside the scope of the individual Schools. These include specifically the relative development of the several Schools, and the possibility or need for change in the scope and/or character of the Institute's activities. In exercising his academic responsibilities, he shall act in accordance with agreed procedures as to the role of the Faculty in the governance of the Institute.

Dear Brad,

By now, or in the same mail, I hope you will have received copies of the notice which went to all Faculty and Trustees and the additional notice which went to members of the Search Committee, giving them the particulars of the April 26 meeting.

I am enclosing here a drafted announcement to be sent, at some future date, to the New York Times and The Chronicle of Higher Education. Harry has not yet seen this draft, and he may have some good suggestions to make when he returns on Monday, but I thought we should get started.

Now I need your thoughts on the following questions:

1. Would you like to send this draft to the Committee members for comment?
2. What closing date for the applications should be specified? October 1st might be a good date, allowing enough time for those who are away on sabbatical to see the ad when they return, and still affording the committee sufficient time to make its final choice before the end of 1986.
3. When should the ad be placed? There are strong reasons for doing this fairly soon. This is the time of year when academics tend to look for possible changes. By May, many institutions have commenced and the community has begun to disperse. There is also, I gather, some concern among the Faculty here to know that the search--which some think may not be an easy one--has at least been started. And it is true that there may be candidates who are reluctant to initiate their candidacy as long as no public announcement has been made. If the ad appears in early April, we could have some response by the April 26 meeting.

I am also, together with Donna, trying to get hold of the schedules of your committee for May and June so as to set up at least one and possibly two more meetings before July. Once I have their schedules, I will consult with your secretary and see what we can arrange. It will certainly be easier for you, Don, Dan and Zeph to meet at your office, so unless you object, we can plan the later meetings in that way.

We are all so appreciative of your efficiency in getting such a sterling group together and look forward to its progress.

Sincerely yours,

Dear Colleague,

The Search Committee would very much appreciate suggestions from each of you as to

- 1) men and women whose wisdom, position, and acquaintanceship recommend them as consultants in our search process and who could offer advice and suggest names of possible candidates for a new Director.
- 2) names of possible candidates for a new Director.

We would be very grateful if you could send us, as soon as possible, your suggestions in these two categories, distinguishing clearly between those recommended as consultants and those recommended as candidates. Please direct your responses to

Choir College, Institute Begin Search to Replace Ray Robinson, Harry Woolf

Two Princeton educational institutions will be looking for new leaders in the next year.

Ray Robinson, president of Westminster Choir College since 1969, has announced his intention of stepping down from the post in the summer of 1987. At the same time, a search is actively under way at the Institute for Advanced Study for a new director to replace Harry Woolf, director, who will be leaving at the same time.

Dr. Woolf was out of his office this week, but Mary Wisnovsky, assistant to the director, said that the by-laws of the Institute specify five-year renewable terms for the position. They also specify that a director must retire at age 65.

Ray Robinson

Harry Woolf

Stepping Down

Continued from Page 1

Dr. Woolf will have served two five-year terms this year, but he will turn 63 in September and thus is not eligible to complete a full third term. Therefore, he has said he will stay one more year while a search committee seeks a replacement, Mrs. Wisnovsky said. Advertisements for the position have already appeared in publications such as *The New York Times*.

Dr. Robinson will have served 18 years at Westminster by the time he leaves office a year from now. "Eighteen years is a long time," he says, noting that the average college president's tenure is from five to seven years. "It is my sense that the institution needs a new infusion of blood right now, particularly one that is as dynamic as Westminster. Every day, all year round, you have to make something happen.

"It's a seven-day-a-week, 12-hours-a-day job, and it can't survive on anything less. I don't think I am 'burned out.' This is a fabulous institution and it demands total energies. Also, leaders need new challenges," he adds.

Dr. Robinson succeeded the late Lee Hastings Bristol Jr., a Princeton resident, as presi-

dent of the Choir College. He is credited with having led the institution successfully through a transition from a small, single-purpose college to a multi-faceted institution. Founded in Ohio and later moved to Princeton by the late Charles Finley Williamson, who had become known for the quality of singing he developed in his church choirs, Westminster Choir College has evolved under Dr. Robinson's tenure from a small school with a budget of \$1.2 million and very little endowment to an institution with a \$6.5 million budget and an expected \$5 million in endowment by next year.

Conservatory Established. Starting in 1970, Dr. Robinson established the Conservatory, through which Westminster faculty offer music instruction to all ages and all levels of skill on almost all instruments, and the Summer Session, which is capped each year by the weeklong residence of conductor Robert Shaw. Dr. Robinson also re-instated the graduate program and instituted the continuing education division which offers Saturday Seminars. His drive and energy is credited with having expanded the number of engagements and performances around the country by the various Westminster choirs.

Dr. Robinson says he has been offered a visiting fellowship at Cambridge University in England for the 1987-88 year and may spend time there reading in the two fields for which he is primarily known, choral conducting and church music. He and his wife also enjoy the Alps and Italy and may do some traveling. He says he wants some "space" after the hectic 18 years at Westminster, but he is also too energetic a person not to be thinking of another position of leadership in the field of music.

PRESIDENT Morehouse College Atlanta, Georgia

The Presidential Search Committee, established by the Board of Trustees, invites nominations and applications for the position of President of Morehouse College, an all-male predominantly black liberal arts college with additions of a strong business curriculum including ten majors and a cooperative Dual-Degree Engineering Program with Georgia Tech.

The President, who is the chief administrative and academic officer of the College and is responsible for all aspects of its operation, reports directly to the Board of Trustees and its Executive Committee.

The College seeks an experienced educator with the following credentials:

- an earned doctorate in the field of specialization and a distinguished record of scholarly achievement
- demonstrated capacity to play a leading role in the development of the academic program of the College
- proven administrative, fundraising, and public relations talents
- ability to work cooperatively with college constituencies including trustees, faculty, staff, students, and alumni
- ability to represent the College effectively in dealing with foundation, corporation, and government officials, and the general public

Morehouse, which is generally referred to as one of the best of the small private colleges, has a national reputation for academic excellence. The College has a chapter of Phi Beta Kappa, a faculty with more than two thirds of its members holding earned doctorates, and a senior class which annually has at least fifty percent of its members proceeding to graduate and professional schools. Morehouse is outstanding in the production of alumni of have earned Ph.D., M.D., D.D.S., J.D., and M.B.A. degrees. Two years ago 48 members of the Senior Class were accepted at medical and dental schools throughout the United States.

At present Morehouse is enjoying its most successful period of growth and advancement. With four applicants for every position in the Freshman Class, Morehouse has a steadily growing enrollment that now stands at 2,160. Recently the College has conducted two successful national campaigns for \$20 million, has constructed thirteen new buildings, and has increased the endowment to more than \$15.36 million. During the 1970's and 1980's Morehouse has operated without deficits.

Morehouse is a founding member of the Atlanta University Chapter, a consortium of seven independent institutions that conduct cooperative programs, and is closely associated with all-female Spelman College.

The deadline for the receipt of applications and nominations (including résumés and five references) is September 15, 1986. The Search Committee is planning to screen applicants prior to the Fall Meeting of the Board of Trustees. The new President will assume his duties on July 1, 1987.

Nominations and applications should be submitted to:

Applications and résumés should be sent to: Mr. Bill Cockroft, P. O. Box 12449, Memphis, TN 38112.

PRESIDENT ORCHARD RIDGE CAMPUS

Oakland Community College seeks qualified candidates for the position of President, Orchard Ridge Campus, who will report directly to the Chancellor.

The President is responsible for the leadership, planning, organizing, implementing and evaluating of the activities of a campus unit serving the municipalities of south central Oakland County, accepting students from all parts of the county/district and utilizing faculty from all college campuses. The ability to integrate this campus with the operation of a multi-campus district of complex dimensions is essential.

QUALIFICATIONS: The college is looking for an innovative leader for all aspects of the Orchard Ridge Campus who has the ability to influence the wider operations of this comprehensive multi-campus community college. A doctorate is preferred. No less than ten years of community college experience is expected, with five of the last ten years in a presidency or senior administrative level of responsibility. Administrative skills in Human Resource Development and collective bargaining contract development and management are expected. Commitment to the comprehensive community college concept is expected to be demonstrated through past performance.

Oakland Community College is a public two-year institution serving 26,000 students in Oakland County, a dynamic growth area of Southeast Michigan in suburban Detroit.

The Orchard Ridge Campus, serving over 7,500 students, is made up of 11 attractive modern buildings on 147 acres of rolling landscape. Students from all parts of the area are enrolled, and faculty from other campuses join the Orchard Ridge faculty in meeting the teaching schedules of the college.

Salary for this position is competitive for the area, experience and responsibilities outlined. Working conditions and benefits are exceptional. Résumés should be sent by June 20, 1986, to:

At that time, Dr. Woolf will have completed the ten-year term specified in the Procedures for the Academic Governance of the Institute, having stayed on one further year during the search for a successor. After a sabbatical leave abroad, he will return to the Institute to continue his research in the History of Science and related subjects.

Dr. Woolf came to the Institute from The Johns Hopkins University where he had served as Chairman of the Department of the History of Science and Provost. He is the author and editor of numerous works including The Transits of Venus: A Study in Eighteenth-Century Science and Some Strangeness in the Proportion: A Centennial Symposium to Celebrate the Achievements of Albert Einstein.

The Board of Trustees has established a Search Committee for a new Director under the chairmanship of Thornton F. Bradshaw. Inquiries may be addressed to Mr. Bradshaw at the Institute for Advanced Study, Olden Lane, Princeton, New Jersey, 08540.

Founded in 1930, The Institute for Advanced Study is a completely independent postdoctoral research institution, located in Princeton, New Jersey. It consists of the Schools of Mathematics, Historical Studies, Natural Sciences and Social Science. Each School has a small permanent faculty, and some 150 fellowships are awarded annually to visiting members from universities and research institutions around the world.

On July 1, 1987, Dr. Harry Woolf will resign from his position as Director of the Institute for Advanced Study where he has been Director since 1976.

At that time, Dr. Woolf will have completed the ten-year term specified in the Procedures for the Academic Governance of the Institute, having stayed on one further year during the search for a successor.
